Re: Support for the Academic and Research Facility at Southern Maryland Higher Education Center

Dear Chair Kaselemeyer:

The Commissioners of St. Mary's County request your continued support for the planned academic and research facility at the Southern Maryland Higher Education Center, which is a key component to our economic ecosystem and a future asset of the University System of Maryland. To keep the project on track to open by 2020, \$27.865 million is needed in the State's Fiscal Year 2019 Capital Budget.

Please reject the DLS recommendation to cut the capital funding for the USM Southern Maryland Higher Education, Engineering and Research Center. This project is slated to begin construction this summer and with the SMHEC/USM merger will create an unprecedented opportunity to support new educational, training and certification opportunities for students and the workforce throughout Southern Maryland, further drive STEM-related research and development, particularly in the growing field of unmanned and autonomous systems, and promote greater economic innovation and diversification across the region.

The County's unwavering commitment is demonstrated by a \$1 million local appropriation in FY2016. This project will transform Southern Maryland as a top priority for the Navy, the private technology community in St. Mary's County, and our confidence in the economic development benefits it will bring to the Southern Maryland Region and the entire State of Maryland.

Thank you for your consideration. Please contact Dr. Rebecca Bridgett, County Administrator, should you need further clarification or additional information.

Sincerely,
COMMISSIONERS OF ST. MARY'S COUNTY

James Randy Guy, President

Michael L. Hewitt, Commissioner

Tom Jarboe, Commissioner

Todd B. Morgan, Commissioner

John E. O'Connor, Commissioner

Senator Edward J. Kasemeyer
