A. December Training Class

Don Haskin, chairman suggested two consecutive Wednesday classes in November or December. Ron Derby, member will look at SMECO's calendar for November and December.

6. BEE ROUND TABLE

A. Round Table

Robert Spence, member asked a question on EVSE Charging Station (electric vehicle supply equipment) is it required to have a grounding rod? Don Haskin, chairman stated no unless the instructions for the charger require a ground rod. If it is only one circuit and a snap switch is the disconnect, no grounding electrodes required. Don Haskin, chairman received an email from Gaspar Janos from NESEA for recommendations for a full time electrician for hire at NESEA. Don Haskin, chairman gave him a few electrical contractors that he knew of in an email. Don Haskin, chairman stated that this was another example of if we had an accurate list of master electricians we could send out something to them for a job opportunity. Don Haskin, chairman, asked where is the outlet for a well pump? Does a well pump need GFCI (ground fault circuit interrupter) protection? Don Haskin, chairman has had email discussions with Mike Holt. Don Haskin, chairman stated that this may

become a problem in 2026 code unless it is clarified. He also stated that the Board of Electrical Examiners may be called to make that determination at some point.
